

**Subject: Knud W. and Unni Linde info.**

The Lindes lived in the Pelham area in the 1970's & 80's, I believe

The house of Knud W. Linde' and Unni Linde' was on the exact spot where our house now is. Unni was from Denmark; the daughter of a well-known jeweler there. She had never been married before Knud, and I think she was age 55 when they married. He brought her to the U.S., and they traveled to almost every state before coming to the Pelham Valley and purchased a house and some land and settled here. Throughout their stay here they purchased more and more of the "mountain" land around them until they had 66+ acres before they died. We were given first option to purchase their property (per Unni's will).

Yes, Knud was a U.S. WWII vet. He was a retired Army Colonel (I think I'm right on that rank). He fought in several active battles and was wounded. He had been married before & divorced; leaving that family in Texas. He had 2 daughters and 2 grandsons, I think it was.
